Career Objective

Passionate B.Tech graduate with a strong foundation in Core Java, OOPs, and backend development. Skilled in building small-scale Java projects and currently learning Spring Boot for developing RESTful APIs. Eager to contribute as a Java Developer while continuously learning new technologies. Also comfortable with HTML, CSS, JavaScript, and React, offering a basic understanding of full-stack development.

Education

Vignan University

B.Tech in Food Technology (GPA: 7.86)

Guntur, Andhra Pradesh

June 2021 – April 2025

Sri Chaitanya

Class XI – XII (914 / 1000)

Bhimavaram, Andhra Pradesh

June 2019 – April 2021

Aditya E.M School

Class IX – X (9.8 / 10)

Bhimavaram, Andhra Pradesh

October 2017 – April 2018

Experience

Bharath Internship

March-2023

Full-Stack Developer Intern

Remote

- Developed a responsive portfolio website using React.js with modern UI/UX design, showcasing personal projects and technical skills.
- Built a dynamic Weather App using the OpenWeather API to provide real-time weather updates, integrating API calls with React components.
- Created a Task Management System with a Spring Boot backend and MySQL database, enabling task creation, updates, and persistence.
- Developed a Student Management System featuring user authentication and full CRUD operations using Spring Boot and a relational database.

Prodigy InfoTech

June-2023

Frontend Developer Intern

Remote

- Designed and developed dynamic UI components using React.js and JavaScript, ensuring responsiveness and performance optimization.
- Built interactive web applications with modern frontend technologies, focusing on user experience and seamless navigation.
- Utilized CSS and Bootstrap to enhance application aesthetics and maintain a consistent design across multiple devices.

Projects

Food Delivery Web Application | Javascript, Spring Boot, SQL

January 2024

- Developed a food delivery web application with React (frontend) and Spring Boot + MySQL (backend), focusing on basic CRUD functionality.
- Implemented user authentication and basic role-based access using Spring Security.
- Designed RESTful APIs for managing users, restaurants, and orders.
- Added basic search and filtering capabilities for food listings.

Task Management System | Spring Boot, MySQL, JavaScript

December 2024

- Built a Task Management System with Spring Boot as the backend and MySQL for structured data storage and retrieval.
- Utilized Spring Data JPA for efficient CRUD operations and seamless integration with the database.
- Developed a user-friendly and responsive interface using HTML, CSS, and JavaScript for managing tasks with dynamic updates.

Student Management System | Spring Boot, MySQL, JavaScript

October 2024

- Developed a CRUD-based Student Management System using Spring Boot for the backend and MySQL for data storage.
- Implemented database operations using Spring Data JPA, enabling smooth interaction and persistence of student records.
- Designed a simple and responsive UI using HTML, CSS, and JavaScript, allowing users to add, update, and delete records dynamically.

Technical Skills

Languages: Java, C, HTML/CSS, JavaScript, SQL
Frameworks: Spring Boot, React
Developer Tools: VS Code, Eclipse, IntelliJ IDEA
Version Control: Git, GitHub

Certifications

Minor Project Certification In Fullstack Web Development **Unschool**

Major Project Certification in Fullstack Web Development **Unschool**

Java Certification **Udemy**

Preliminary English Test (PET) **Cambridge University – VFSTR University**
Certified in “Preliminary English Test” conducted by Cambridge University in 2022 *2022*

Leadership / Extracurricular

Volunteer Member **Various Events**
Food Department Competitions

- * Actively participated as a volunteer member in multiple events, contributing to smooth event execution and coordination.
- * Engaged in food department competitions, enhancing teamwork, leadership, and problem-solving skills.
- * Developed strong management and organizational abilities by coordinating and assisting in various competitions and events.
